SUMMARY COMMENT
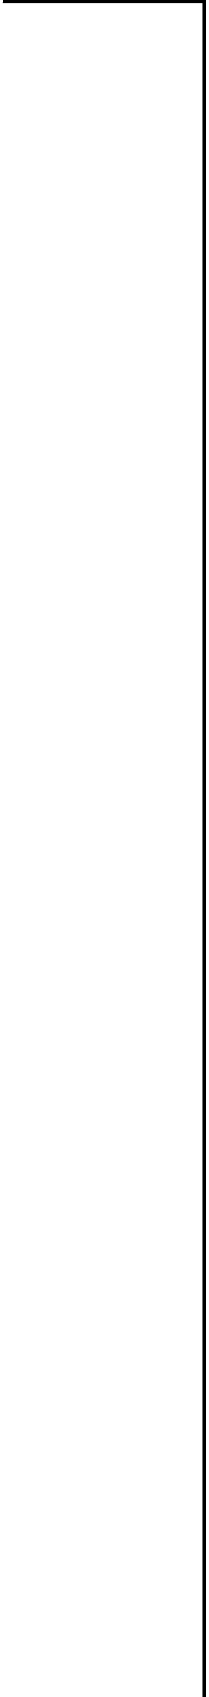

there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set- improve the Coordinated Access governance structure, including processes to ensure that policies and protocols as oved by the governance group(s) are being implemented across the system as intended to achieve desired results.

AB is currently working with four participating agencies on implementing Coordinated Access and establishing data e through a Data Sharing Agreement between participating agencies. The implementation group meets every two ork on vison, common goals, common intake process, building a housing resource inventory, triage, referral, and rocess, common prioritization criteria. Each agency bring foward concerns, questions and comments that were be the final Data Sharing Agreement.

PUBLIC ACCESS TO RESULTS

outlined in the Directives, communities are required to make results of the CHR publicly available. How will the public access to the summary results of this CHR? For example, which website will be used to publish the results?

results will be posted on the DNSSAB website under the housing services section: https://dnssab.ca/housing-services/
